Read the Personal Worldview Readings found on the Personal Worldview and Business Ethics Assignment page under Personal Worldview and Business Ethics Resources. You should answer the questions in the Personal Worldview and Business Ethics Template in a thought provoking manner. These questions are designed so that the answers will demonstrate
your personal worldview.
After reading and completing the information on your Personal worldview, and, within the same
document, you will provide examples of Business ethical practices—good and bad—that reflect
a particular ethical/moral worldview emphasis. Your paper should be written in APA style, using
3–4 references from Business/professional magazines/periodicals.
Your completed Personal Worldview and Business Ethics Assignment should be 3–6 pages.
